Summary

Highly motivated and innovative Application Developer with expertise in iOS and Flutter, delivering cutting-edge mobile solutions. I successfully designed, developed, and launched my debut app which named Elev8tion, on the App Store, demonstrating technical expertise and creative vision.

Education

Government polytechnic, jamnagar, Diploma in computer engineering 2016 – 2019

- CGPA: 7.29

Charotar university of science and technology, Anand, B. Tech in Computer science and engineering 2019 – 2022

- CGPA: 7.85

Experience

iOS developer intern, DRC systems india private limited – Gandhinagar, Gujarat Dec 2021 – Jul 2022

- Completed an internship at DRC, where I gained hands-on experience in iOS development.
- Actively participated in designing, coding, and testing mobile applications using Swift and Xcode. Collaborated with cross-functional teams to enhance user experience.
- Developed a strong understanding of iOS frameworks, interface design, and agile methodologies and contributing to innovative solutions.

Mobile application developer, Prismetric private limited – Gandhinagar, Gujarat Aug 2022 – Present

- At Prismetric, I have worked on a variety of applications, including my first app named Elev8tion, which I successfully published to the App Store.
- I developed expertise in Flutter for cross-platform mobile app development, contributing to several key projects focused on enhancing user experience.
- Additionally, I pursued self-growth by learning Node.js to strengthen my backend development skills.
- Collaborating with a talented team, I played a key role in delivering high-quality software solutions and driving innovation within the organization.

Projects

Elev8tion

- Developed the "Elev8tion" app using Swift.
- Integrated multiple modules, including chat functionality, Google Maps, Stripe payment gateway, event calendar, and Firebase notifications.
- Successfully built and published the app on the App Store.

vTeach student

- Worked on the "Vteach Student" Flutter application.
- Designed multiple app screens for a seamless user experience.
- Integrated Stripe payment gateway and rest APIs.

Technologies

Languages: Swift, Dart, JavaScript, SQL

Technologies: Node.js, XCode.
